

Cabinet Line: Shaker Black

Sherwin Williams Paint Code: BGI-SB

Paint and Stain Purchase Options

1. Store Level:

- You can purchase **paint and/or stain mixes** at any Sherwin Williams store, ideal for **trim pieces and smaller items**.
- **Paint mixes** are **latex-based**, while **stains** are **oil-based**.
- **Minimum order:** One gallon is required for any custom mix.

2. Product Finishes Facility:

- Also known as the **Performance Coating Group**, these facilities can mix the **AC Conversion Varnish** used on our cabinets.
- Recommended for finishing **larger pieces** (doors, panels, furniture).
- **Note:** For a conversion varnish match, bring a door or drawer as a sample.

To locate a Product Finishes facility, use the Sherwin Williams locator tool or search "Sherwin Williams Product Finishes Near Me."

Paint/ Stain Matching Process

When requesting a custom mix of our paint or stain, follow these steps to help the Sherwin Williams team access our **National Account Profile**:

1. **Inform the store associate** that you need a **National Account Database** mix.
2. The associate will open their internal Sherwin Williams browser and go to the **Marketing** tab.
3. Next, they should navigate to the **National Accounts** tab.
4. On the **National Accounts** page, they'll select "**Account Profiles - New**" and search **BGI** in the "Customer Name" field.
5. Once located, provide the **paint code** (BGI-OT) for the mix.
